a record system having a second unique identification code; and  
the first unique identification code being associated in a known manner to the  
second unique identification code.

31. (Amended) A method of securing the authenticity of a document comprising:  
incorporating a taggant into an ink;  
the taggant representative of an identification code; and  
marking the document with the ink.
32. (Amended) A method of securing the authenticity of a document comprising:  
incorporating a taggant into a paint;  
the taggant representative of an identification code; and  
marking the document with the paint.
33. (Amended) The method of claim 31 wherein the taggant is an isotopic taggant.
34. (Amended) The method of claim 32 wherein the taggant is an isotopic taggant.
36. (Amended) A taggant spray paint dispenser comprising:  
a spray paint dispenser;  
a paint contained in the dispenser;  
the paint containing a taggant; and  
the taggant representative of an identification code.

37. (Amended) A taggant spray paint dispenser comprising:  
a spray paint dispenser;  
a paint contained in the dispenser;  
the paint containing a taggant;  
a first unique identification code corresponding to the taggant;  
a second unique identification code marked on the spray paint dispenser; and  
the first unique identification code associated in a known manner with the second  
unique identification code.
38. (Amended) A method of securing the authenticity of a product comprising:  
marking the product with spray paint;  
incorporating a taggant into the spray paint; and  
the taggant being representative of an identification code.
39. (Amended) A method of securing the authenticity of clothing comprising:  
incorporating taggant in a thread;  
the taggant being representative of an identification code; and  
incorporating the thread in the clothing.
